this volume provides a comprehensive account of project based language learning pbll which showcases key theoretical approaches empirical research technological tools and research based frameworks to help further pbll implementation and research taking its cue from the conclusions drawn from project based learning more broadly which point to the impact of project based work on learning and development discourse socialization subject engagement and collaborative skills the book highlights how these discussions might be extended and enhanced within the context of language learning the volume begins with discussions of philosophical and theoretical models of pbll and is followed by case studies from contributors from a range of learning contexts and geographic regions which demonstrate these models in practice with a focus on the implementation of technology in such instances the book also introduces resources for aligning projects with government

standards in the classroom but also frameworks for researching and assessing pbll this comprehensive collection is essential reading for students and researchers in language learning and teaching language education curriculum design and applied linguistics

eresearch presents new challenges in managing data this book explains to librarians and other information specialists what eresearch is how it impacts library services and collections and how to contribute to eresearch activities at their parent institutions today s librarians need to be technology savvy information experts who understand how to manage datasets demystifying eresearch a primer for librarians prepares librarians for careers that involve eresearch clearly defining what it is and how it impacts library services and collections explaining key terms and concepts and explaining the importance of the field you will come to understand exactly how the use of networked computing technologies enhances and supports collaboration and innovative methods particularly in scientific research learn about eresearch library initiatives and best practices and recognize the professional development opportunities that eresearch offers this book takes the broad approach to the complex topic of eresearch and how it pertains to the library community providing an introduction that will be accessible to readers without a background in electronic research the author presents a conceptual overview of eresearch with real world examples of electronic research activities to quickly increase your familiarity with eresearch and awareness of the current state of eresearch librarianship

since the creation of the national science foundation in 1950 the federal government has acknowledged and supported the centrality of science and technology to the global competitiveness of the united states in this important work historians alan i marcus and amy sue bix present illuminating case studies that highlight crucial policy patterns shifts in emphasis and debates over future directions of us science and technology policy one major theme that emerges from these studies is that universities quickly became the main vehicles through which national science and technology policy was developed as universities became involved in implementing federal policy their role as educational institutions inevitably changed other themes include the effect of gender and minority concerns on policy as well as the application of social science to selecting research agendas and technology initiatives marcus and bix s revealing analysis corrects the misperception that federal science and technology policy is solely concerned with defense they demonstrate that biotechnology robotics nanotechnology and information science have also become potent policy choices in recent years impacting such diverse areas of society as medicine agriculture energy use economic trends and homeland security containing a wealth of information and insightful analysis this comprehensive chronological study will be especially useful for undergraduate readers while offering much to graduate students and established scholars

the uprisings at wounded knee and alcatraz and the creation of la huegla and la raza unida have all shown that the chicano and the native american will no longer suffer under the oppression and exploitation of anglo america say the editors of this volume the

fourteen manifestos and commentaries in this book provide a forceful rejection of the racist stereotypes perpetuated in the past by anglo citizens social scientists and policy makers and lead the way in the struggle of chicanos and native americans for their rights actively committed to these movements the contributors many of whom are chicanos or native americans examine diverse social educational and governmental problems that affect these minorities the reveal a pattern of neglect deprivation and federal paternalism that has created a volatile mood among chicanos and native americans as territorial minorities chicanos and native americans do no fit the traditional melting pot formula as do most other ethnic groups new solutions are necessary say the editors the contributors propose various educational and social programs which recognize the needs and the cultural uniqueness of both chicanos and native americans all urgently needed to avoid the confrontations and strife that the trail of broken treaties and the deaf ears of washington have provoked in recent years back cover
