from eve's apple to proust's madeleine to today's culinary tourism food looms large in culture debates about health and nutrition are common in news reports yet despite its fundamental relationship to food taste is mysteriously absent from most of these discussions the flavors of foods permeate social relations religious and other occasions charged with memory emotion desire and aversion taste is arguably the most evocative of the senses the taste culture reader explores the sensuous dimensions of eating and drinking from the physiology of the tongue to the embodiment of social identities and enactment of ceremonial meanings this book will interest anyone seeking to understand more fully the importance of food and flavor in human experience

the first edition of the auditory culture reader offered an introduction to both classical and recent work on auditory culture laying the foundations for new academic research in sound studies today interest and research on sound thrives across disciplines such as music anthropology geography sociology and cultural studies as well as within the new interdisciplinary sphere of sound studies itself this second edition reflects on the changes to the field since the first edition and offers a vast amount of new content a user friendly organization which highlights key themes and concepts and a methodologies section which addresses practical questions for students setting out on auditory explorations all essays are accessible to non experts and encompass scholarship from leading figures in the field discussing issues relating to sound and listening from the broadest set of interdisciplinary perspectives inspiring students and researchers attentive to sound in their work newly commissioned and classical excerpts bring urban research and ethnography alive with sensory case studies that open up a world beyond the visual this book is core reading for all courses that

cover the role of sound in culture within sound studies anthropology sociology cultural studies history media studies and urban geography

the nineteenth century is central to contemporary discussions of visual culture this reader brings together key writings on the period exploring such topics as photographs exhibitions and advertising

this book is an exploration of how time space and social atmospheres contribute to the experience of taste it demonstrates complex combinations of material sensual and symbolic atmospheres and social encounters that shape this experience space taste and affect brings together case studies from the fields of sociology geography history psycho social studies and anthropology to examine debates around how urban designers architects and market producers manipulate the experience of taste through creating certain atmospheres the book also explores how the experience of taste varies throughout life or even during fleeting social encounters challenging the sense of taste as static this book moves beyond common narratives that taste is acquired or developed to emphasize the role of psycho social histories of nostalgia memories of childhood migration trauma and displacement in the experience of we eat and drink it focuses on entrenched social dimensions of class value and distinction instead of psychological and neuroscientific conceptualizations of taste and sensuous practices of consumption to be intrinsically linked to the experience of taste in complex ways this book will appeal to undergraduate and postgraduate students of sociology human geography tourism and leisure studies anthropology psychology arts and literature architecture and urban design

at the turn of the seventeenth century hristomir stanev argues ideas about the senses became part of a dramatic and literary tradition in england concerned with the impact of metropolitan culture drawing upon an archive of early modern dramatic and prose writings and on recent interdisciplinary studies of sensory perception stanev here investigates representations of the five senses in jacobean plays in relationship to metropolitan environments he traces the significance of under examined concerns about urban life that emerge in micro histories of performance and engage the in voluntary and sometimes pre rational participation of the five senses with a dominant focus on sensation he argues further for drama s particular place in expanding the field of social perception around otherwise less tractable urban phenomena such as suburban formation environmental and noise pollution epidemic disease and the impact of built in city space the study focuses on ideas about the senses on stage but also to the extent possible explores surviving accounts of the sensory nature of playhouses the chapters progress from the lower order of the senses taste and smell to the higher hearing and vision before considering the anomalous sense of touch in platonic terms the plays considered include five city comedies a romance and two historical tragedies playwrights whose work is covered include shakespeare jonson webster fletcher dekker and middleton ultimately stanev highlights the instrumental role of sensory flux and instability in recognizing the uneasy manner in which the london writers and perhaps many of their contemporaries approached the rapidly evolving metropolitan environment during the reign of king james i
