a vivid portrait of the man behind the writings placing orwell and his work at the centre of the current political landscape one of the most enduringly popular and controversial writers of the twentieth century george orwell s work is as relevant today as it was in his own lifetime possibly in the age of brexit trump and populism even more so doublethink features in nineteen eighty four and it is the forerunner to fake news he foresaw the creation of the eu and more significantly he predicted that post imperial xenophobia would cause britain to leave it his struggle with his own antisemitism could serve as a lesson to today s labour party and while the soviet union is gone china has taken its place as a totalitarian superpower aside from his importance as a political theorist and novelist orwell s life is fascinating in its own right caught between uncertainty and his family s upper middle class complacency orwell grew to despise the class system that spawned him despite finding himself unable to fully detach himself

from it his life thereafter mirrored the history of his country like many from his background he devoted himself to socialism as a salve to his conscience in truth he reserved as much suspicion and distaste for the proles as he did pity he died at the point when britain s status as an imperial and world power had waned but his work remains both prescient and significant

addresses questions arising from the development and use by rulers and states of military diplomatic economic and political intelligence from ancient times this book takes a view of intelligence as an element in state and international affairs

the contributions in this volume address the ways the two imagined cultural spaces commonly designed as central europe and north america have mutually attributed meanings to each other and set out to trace patterns and structures resulting from this process rather than concentrate on what happens when cultural forms and practices travel across the atlantic the focus lies on the contexts of their insertion into the other culture the articles draw attention to how those complexities and contradictions are resolved on an ideological basis in order to produce the kind of stability that is the hallmark of geo cultural place signification but also conversely the revenge of a spatialized history the reassertion of their temporality that cultural practices produce when they reverberate in displacement
