reading machines in the modernist transatlantic provides a new account of aesthetic and technological innovation from the machine age to the information age

this examination of american novels from 1900 to 1940 traces the literary treatment of the technological sublime a simultaneous awe and fear of technology the american technological sublime is a construct that can be useful in understanding the often conflicted and ambivalent reactions of enthusiasm and anxiety exaltation and depression associated with the patterns of development experienced in the us in this transitory period the first four decades of the 20th century saw the culmination of the technological sublime in america the loss of the innocently one sided enthusiasm and technological republicanism of the 19th century to a fragmented often paranoiac and largely pessimistic vision of technology that became dominant of the literature after world war ii after an evaluation of earlier scholarship on the american technological sublime the study examines four important decades in the development of the american technological sublime and some of the literary responses to it

the key figure of the capitalist utopia is the individual who is ultimately free the capitalist s ideal society is designed to protect this freedom however within planet utopia utopia dystopia globalisation featherstone argues that capitalist utopian vision which is most clearly expressed in theories of global finance is no longer sustainable today this book concerns the status of utopian thinking in contemporary global society and the possibility of imagining alternative ways of living outside of capitalism using a range of sociological and philosophical theories to write

the first intellectual history of the capitalist utopia in english featherstone provokes the reader into thinking about ways of moving beyond this model of organising social life through sociological modes of thought indeed this enlightening volume seeks to show how utopian thinking about the way people should live has been progressively captured by capitalism with the result that it is difficult to imagine alternatives to capitalist society today presenting sociology and sociological thinking as a utopian alternative to the capitalist utopia planet utopia will appeal to postgraduate and postdoctoral students interested in subjects including sociology social theory cultural studies cultural theory and continental philosophy

in recent decades special effects have become a major new area of research in cinema studies for the most part they have been examined as spectacles or practical tools in contrast special effects and german silent film foregrounds their function as an expressive device and their pivotal role in cinema s emergence as a full fledged art special effects not only shaped the look of iconic films like nosferatu 1922 or metropolis 1927 but they are central to a comprehensive understanding of german silent film culture writ large this book examines special effects as the embodiment of a techno romantic paradigm that seeks to harness technology the epitome of modern materialism as a means for accessing a spiritual realm employed to visualize ideas and emotions in a medium specific way special effects thus paved the way for film art
