this publication examines the processes and impact of market restructuring through comparative in depth empirical case studies in selected asian countries namely china india indonesia philippines sri lanka and thailand these countries represent both a broad geographic coverage and a range of stages of market concentration in the region the country papers address important questions such as what determines the participation of producers in different channels what is the impact of farmer participation on incomes and what institutional technological economic and other reforms are necessary to enhance their effective participation in the emerging and restructuring markets the case studies attempt to identify major factors that affect smallholder producers access to output markets input markets e g seeds fertilizers agrochemicals technology and services such as credit extension insurance each case study has tried to analyse one specific innovation and these innovations are specific arrangements built on public policies business initiatives collective group action by small scale producers etc that appear to have played a positive role in supporting greater inclusion the studies aim to derive models strategies and policy principles to guide public and private sector players in promoting greater participation of small scale producers in dynamic markets

covid 19 has resulted in a shock to agrifood systems around the world with the potential for low and middle income countries to be particularly affected although policy responses were more muted than during the 2007 2008 world food crisis efforts to insulate from supply shocks and ensure local availability during covid 19 have generally included export restrictions and import tariff reductions among other responses in an effort to enable rapid market monitoring and realignment we develop a new indicator defined as a monthly nominal rate of protection express which seeks to isolate as much as possible the effect of trade and market policies on domestic prices in real time in order to understand how they responded this analysis examines changes to this indicator during the first wave of the pandemic in 27 low and middle income countries for the most consumed staple cereals of the poor and food insecure we show that agricultural price incentives declined by 12.6 percentage points compared to the

same months in previous years suggesting that retail domestic price spikes may have largely been mitigated or avoided however impacts varied across countries and commodities and this indicator can serve as a tool for examining primary drivers of changes and conducting causal analysis to facilitate adequate agrifood policy responses to support economic recovery in the post covid 19 era

an interdisciplinary approach which combines clothing textiles and business administration in the apparel and soft goods industry as analyzed from a marketing perspective the marketing model product people place promotion and price forms the foundation for the structure of this text

combining theoretical sophistication with a fundamental comprehension of the political institutions of the usa this study aims to demystify the workings of the united states supreme court and its place in democracy
