this completely revised edition now includes the most current terminology this unique text helps your students learn medical terminology from a classics approach and includes references to greek and latin mythology in addition many new illustrations reinforce concepts and highlight various etymological notes

from the past to the present master the language of medicine through its history take a language origin approach to mastering medical

terminology through the root elements of medical terminology the prefixes suffixes and combining forms from greek and latin tales from ancient greek and latin writers mythical stories of gods and goddesses excerpts from the writings of ancient physicians and modern stories of scientists and physicians who struggled to identify and accurately label the phenomena they observed make them memorable exercises and activities make learning easy

this workbook teaches modern medical terminology through an examination of its etymological roots in ancient languages lessons in the first two units provide a grounding in greek and latin while those in the third and fourth focus on particular body systems i e cardiovascular digestive musculoskeletal etc also included are a lesson on biological nomenclature indexes of latin and greek suffixes prefixes and combining forms and an english to greek latin glossary the third edition covers the most current medical terminology as found in the 19th ed of taber s cyclopedic medical dictionary annotation 2004 book news inc portland or booknews com

excerpt from exercises on etymology the english tongue presents so great a variety of elements that the study of its etymology affords an acquaintance with many other languages tending to familiarise the student not only with modern german one branch of the same teutonic family as that to which english belongs but also with greek and latin and with french spanish and italian which the dead languages originally helped to form many efforts have been successfully made of late to render the access to latin and greek inviting to the pupil by a knowledge of latin roots existing in english words but as yet little has been done in school books to make the existence of teutonic words in our language available for ascertaining the roots of saxon english words and for familiarising the memory with the kindred words of the modern german this want is attempted to be supplied in the present volume about the publisher forgotten books
